

CLUB GUIDELINES FOR PLACING A VEHICLE ON CLUB PERMIT SCHEME

The Vic Roads Club Permit Scheme is designed to allow the occasional use of vehicles which qualify under the rules of the scheme.

The Victorian Chapter of the Pontiac Car Club is an approved Club under this scheme and its Members may apply to the Committee to have their Vehicle included in the Scheme.

Where a Member wishes to have a Vehicle included onto the scheme they will be required to get a Certificate of Roadworthiness for the Vehicle and complete the “Rules and Guidelines” acceptance form. These must then be submitted to an approved Committee Member to be signed and verified.

Only Financial Members of the Pontiac Car Club will be allowed to place a Vehicle onto the Club Permit Scheme.

If a Members Financial status Lapses then the Club will advise Vic Roads to have that Permit Cancelled.

The Club understands that some members may have vehicles other than a Pontiac that they would like to include in the scheme. These may be added to the register of Vehicles on the Permit Scheme under the Pontiac Car Club but only if that Financial Member has a Minimum of One other vehicle that is a Pontiac Model also included on the scheme or shown to be on Full registration.

Members will abide by the Rules of the Scheme as advised by Vic Roads and the Guidelines for acceptance set down in this document.

Any Members found to be in breach of the Rules and Guidelines may have their permit cancelled if a suitable resolution is not reached after consultation with the Committee.

If a question is raised about the safety or Roadworthiness of a vehicle the club may at its discretion request that a member obtain a Roadworthy Certificate for that vehicle to show that it complies with the standards required to be driven on the roads.

No Club or Committee member will be responsible for determining if a vehicle is safe to be driven on the road. Only a valid Certificate of Roadworthiness will be accepted to show the safe condition of a vehicle.
